

Sharing your NDIS Plan with Aspire

If you agree to share your plan with Aspire we will be able to see basic plan details including:

- your name
- NDIS number
- date of birth,
- your goals and budget.

There is also information about things like your plan end date which is very important when calculating the amount of services that can be provided over the period of your plan.

There are often particular phrases in the description box next to a funding amount. These phrases (stated supports) indicate that funding must be spent on a very specific service.

Knowing exactly what is written will ensure that funding is allocated according to the “rules” of the NDIS. We don’t want you to run out of funding for your services or have remaining unspent funds in your plan which may impact your next plan. It helps us to support you with your choice and control.

The plan provides very important information to make sure Aspire can target your services to meet your goals and outcomes.

How To Share Your Plan With us

To share your plan with us you need to access the NDIS myplace portal through your myGov account.

If you need assistance with this please contact the NDIS to get an activation code if you have not already received one. Note: the activation code expires 10 days after issue so it is important to access the myplace portal through your myGov account as soon as you have received an activation code.

There is other information on the NDIS website that explains all the things you can do on the myplace portal. This is the link to the information: <https://www.ndis.gov.au/participants/using-your-plan/managing-your-plan/how-use-myplace-portal>

Aspire's Vision is “ A community where all people live the life they choose”. Having a clear understanding about your NDIS plan will help us provide the supports you need.
